

Typically, fewer people vote in a midterm election than do in a presidential election. If the Democrats were to take over in 2026, they would undo everything listed here and more before enacting the dangerous and radical Democratic Socialist of America (DSA) policies.

- President Trump’s government-wide deregulatory mandate is projected to save the U.S. economy \$1.5 trillion in FY2026 alone.
- The Trump Administration’s unprecedented government efficiency reforms have already saved an estimated \$215 billion — about \$1,335 per taxpayer — and shrunk the federal workforce to its lowest level since 1966.

Defending Women, Children, Biological Reality — and Common Sense

President Trump put truth and common sense back into federal policy.

- President Trump declared it the official policy of the U.S. Government that there are only two immutable sexes: male and female.

A high school North Carolina girl volleyball player suffered a severe traumatic brain injury in a September 1, 2022, match against a rival school when a biological male athlete who identified as transgender spiked the ball.

Under President Trump, Vice President JD Vance, and Republican leadership, the era of managed decline is over—and America is finally winning again. In under two years, President Trump sealed the border, made the streets safer, unleashed American energy, cut taxes for workers, restored the military, ended wars, and put America first.
